

Steel Railings Modern

HERACLES

HERACLES is a modern steel hollow section railing design which provides good boundary protection. At heights above 1500mm it has a sharp serrated top edge which acts as a good deterrent to would-be climbers. The system is a modular design which benefits from anti-tamper post to panel fixings as standard.

HERACLES

specification

TYPE	HEIGHT	POST SECTION	BAR INFILL DIAM	SERRATED TOP
HERACLES 80	800mm	60 x 60mm	22mm	NO

Why specify HERACLES?

- Stylish
- Anti-climb
- Anti-tamper fixings

Common Applications:

- Prestigious sites
- Commercial sites
- Modern locations
- Medium Security
- Parks & Recreation

POST & FIXINGS

Square hollow section steel posts are used as part of the Heracles system which also incorporates specially manufactured anti-tamper bolt & bracket fixings.

SLOPING GROUND

Heracles panels can be stepped on site to accommodate sloping ground

MATCHING GATES

A comprehensive selection of single & double leaf swing and sliding gates are available to match.

FINISHES

The Heracles system can be either galvanised or galvanised and colour coated. Various colours are available.
