

Steel Railings Modern

OLYMPUS

OLYMPUS fencing is similar to Atlas railing but with an additional top horizontal bar. The strength of the fence, particularly in its upper section is significantly increased by having twin horizontal bars which also provide a distinctive fence design. The Olympus fencing system is a modular fencing system which benefits from anti-tamper fixings as standard.

OLYMPUS

specification

TYPE	HEIGHT	POST SECTION	BAR INFILL DIAM	BAR TOP
OLYMPUS 80	800mm	60 x 60mm	26mm	CAP

POST & FIXINGS

Square hollow section steel posts are used as part of the Atlas system which also incorporates specially manufactured anti-tamper bolt & bracket fixings.

SLOPING GROUND

Olympus panels can be stepped on site to accommodate sloping ground.

MATCHING GATES

A comprehensive selection of single and double leaf swing gates and sliding gates are available to match.

FINISHES

The Olympus system can be either galvanised or galvanised and colour coated.

Various colours are available.
