

hoard ADboard

Ecohoard ADboard is an environmentally friendly fencing system that enables you to print your logo, photos or advertising in full colour. The Ecohoard ADboard is not only a durable temporary fencing system but it will also help you to reduce carbon footprint whilst enhancing your corporate image. Printing onto laminated OSB sheeting the Ecohoard ADboard allows you to mirror your corporate identity by printing logos and photos/advertising in full colour. This environmentally friendly temporary fencing system adds a clean modern finish to any site. Use the Ecohoard ADboard to market your own company and that of your clients company, and then use on your next site or recycle!
